Why Choose Vaporo?

Introducing Vaporo Solutions Ltd

At Vaporo Solutions Limited, we offer stylish heating solutions that will enhance the look of your new or existing home. We have designed and created a bespoke range of designer radiators, available in a variety of design specs, colours, shapes and sizes, guaranteed to add unrivalled style, luxury and comfort to any room in your home, whether it's a new build or a renovation.

Modern designer radiators are no longer considered luxury items. We match function and affordability with style and high performance. Our radiators offer high heat outputs with attractive contemporary design, adding functionality and style to your home. A designer radiator can help you make the most of the space available and turn your heating into an attractive focal point of the room.

Designer radiators have transformed the home heating market. At Vaporo we have a wide range of contemporary vertical and horizontal designs that can make the most of your available floor and wall space. Our radiators can heat any home whilst adding a modern flair to your decor.

Our collection features an array of finishes and colours – including high gloss white, chrome, black, grey and trendy raw metal – so you can heat your home in style.

All Vaporo design radiators can be easily plumbed in to your home heating system and make an ideal decorative replacement for existing radiators. All Vaporo designer radiators are compliant with various renewable energy sources.

Each radiator has been tested and certified to **BS EN442** standards so you can be reassured of high quality radiators with a **5-year** warranty.

Our range of designer radiators feature:

- 5 year warranty
- 1.5mm steel construction
- Aluminium options available
- A wide range of styles, sizes and finishes
- High heat output **at Delta T50 & T60**
- All models are compliant and easily plumbed for various renewable energy sources

 **RAL colours available**

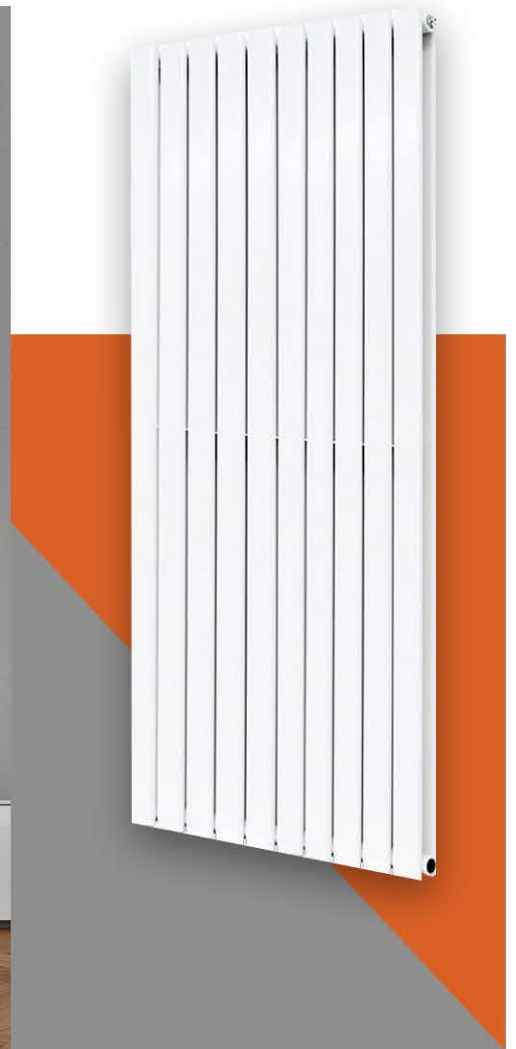

We can advise you on how to integrate your new designer radiators into your existing heating system.

Discover our stunning collection of designer radiators and begin to heat your home stylishly and efficiently with the help of Vaporo Solutions Limited.

Affinity

Designer Radiator

The Affinity radiator presents style, performance and affordability. This designer radiator will combine attractiveness with high output performance. With a high-end look and exceptional high build quality, the Affinity radiator is designed with sleek lines and smooth contours to complement a range of interiors.

With excellent heat outputs you can now have designer style without compromising on quality.

Features

- Vertical radiator available in 1800 & 2000mm high and four widths 308, 462, 539 and 616mm
- Available in single or double vertical panel options
- Manufactured and tested to BS EN 442
- Durable powder coated paint
- Full 5-year warranty

Available in Anthracite & White
from stock

Available in RAL colours.

Affinity Specification

***Note:** The distance between the connection centres equals the length of the radiator

Affinity Vertical - Single Panel

Radiator Height (mm) | **1800/2000**

Water Content Per Element/Tube (L) | **1.008/1.120**

Affinity Horizontal - Single Panel

Radiator Height (mm) | **400/600**

Water Content Per Element/Tube (L) | **0.224/0.336**

Affinity Vertical - Double Panel

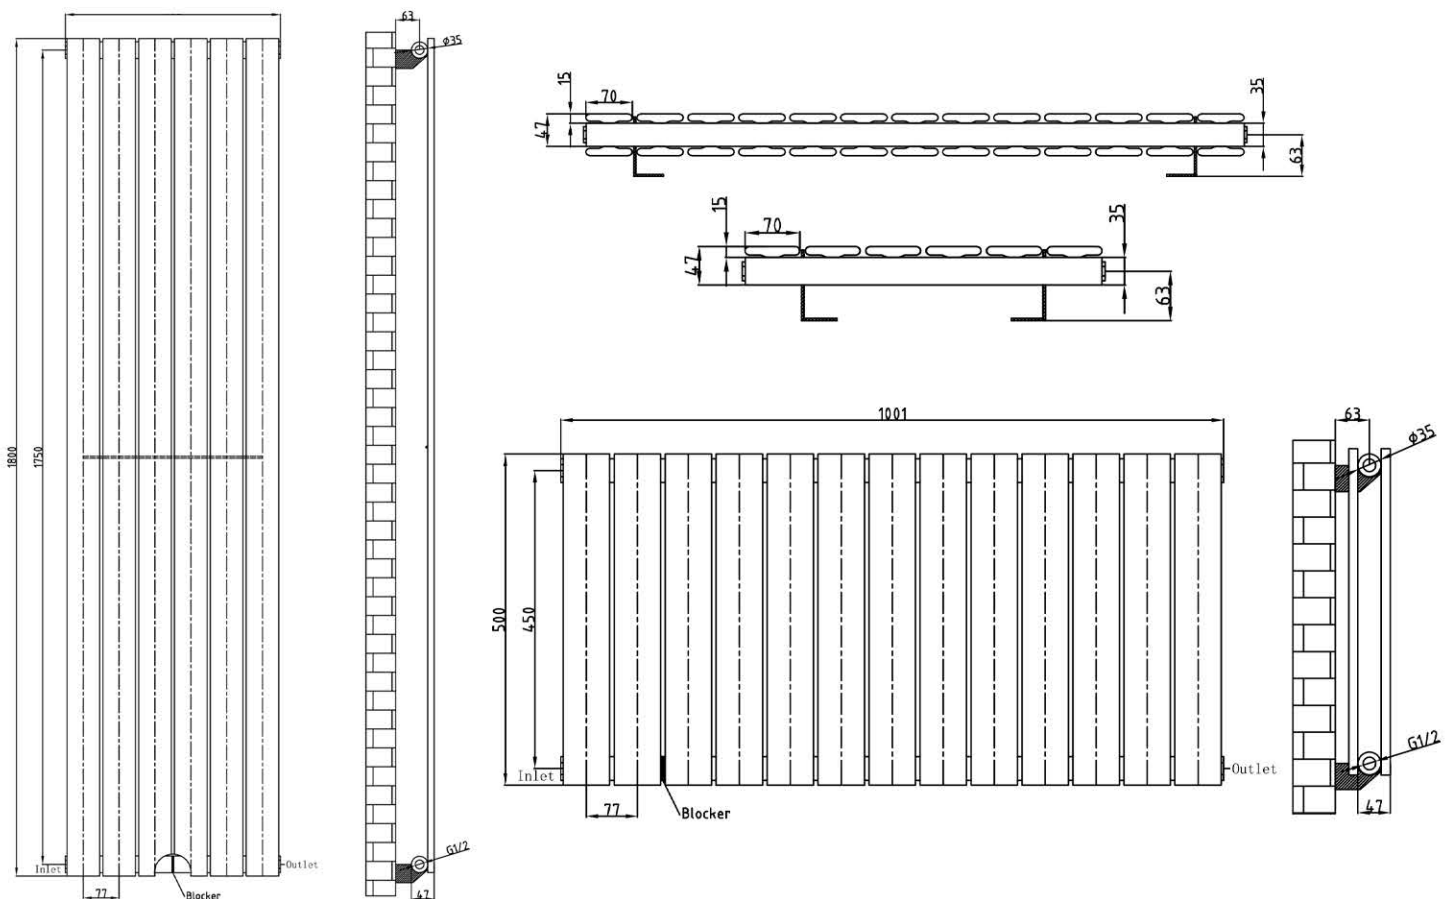

Radiator Height (mm) | **1800/2000**

Water Content Per Element/Tube (L) | **2.016/2.240**

Affinity Horizontal - Double Panel

Radiator Height (mm) | **500/600**

Water Content Per Element/Tube (L) | **0.560/0.672**

All Vaporo radiators are BOE and pipe centres are the radiator width plus 74mm.

If used with Vaporo Valves.

Please note due to manufacturing tolerances pipe centres may vary by +/- 10mm, we recommend that pipe work is not altered until your radiator is on site.

All Affinity Radiators: **Test Pressure:** 7 bar **Max Operating Pressure:** 6 Bar

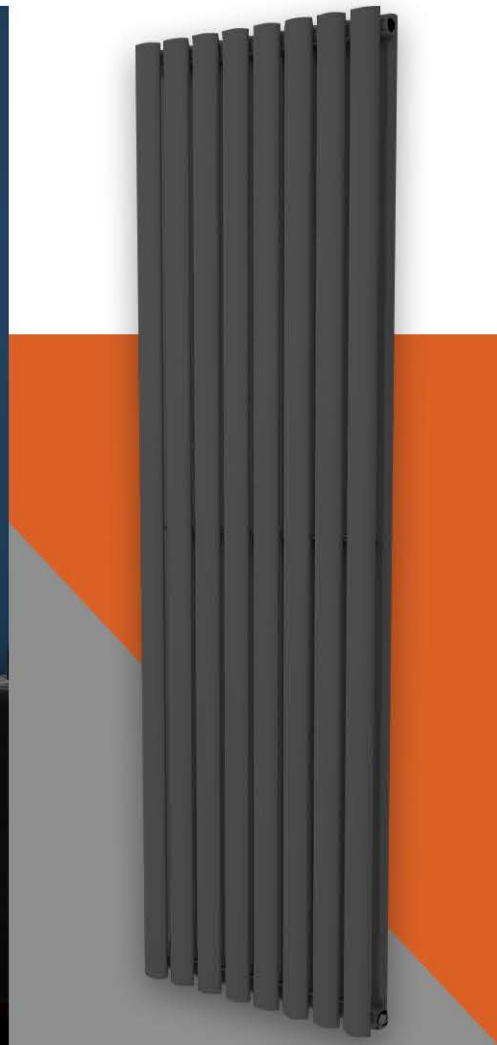

Affinity

Designer Radiators

Nika Designer Radiator

The Nika radiator's oval tube design adds a beautiful, contemporary feature to your home. These sleek radiators impress not only with their clear, structured and modern design, but also with their outstanding performance. Thanks to their slim design, Nika radiators can be installed in small rooms and niches.

The radiators are manufactured to the highest possible standard using premium quality mild steel which ensures reliability and provides an impressive heat output.

These radiators have a fantastic finish and the high quality components used inside provide an excellent heat output in comparison with cheaper alternatives.

Features

- Available in horizontal and vertical styles
- Horizontal radiator available in 600mm high and 4 widths 700mm to 1400mm
- Vertical radiator available in 1500mm and 1800mm high

Features

- Vertical radiator available 1500mm & 1800mm high
- Available in double sided option
- Manufactured and tested to BS EN 442
- Durable powder coated paint
- Full 5-year warranty
- Available in Anthracite & White from stock

Available in RAL colours.

Designer Radiators

Thor Designer Radiator

Unleash the Power of Style and Warmth in Your Home. Elevate your living space with our latest creation, the Thor designer radiator! This stunning piece is not just a heater, it's a statement, a conversation starter, and a bold expression of contemporary design.

The Thor radiator isn't just a source of warmth, it's a work of art. Its bold and striking design transforms any room into a gallery of modern elegance. Make a statement with a radiator that goes beyond utility.

Available in both anthracite and white, Thor adapts seamlessly to your interior aesthetic. Choose anthracite for a dramatic, industrial edge, or go for the timeless purity of white to complement any decor style.

Features

- Made from premium quality steel
- High heat outputs
- Unique striking design & appearance

Features

- Manufactured and tested to BS EN 442
- Durable powder coated paint
- Full 5-year warranty
- Available in Anthracite & White from stock

Valerio

Pages 30 - 37

Viva

Pages 38 - 43

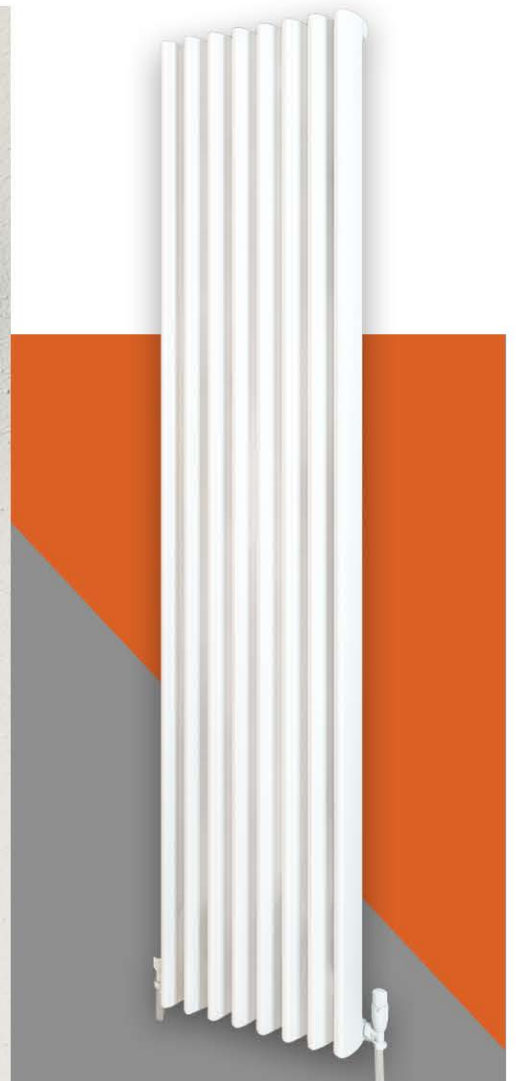

Venus

Pages 44 - 49

Vito

Pages 50 - 55

A stunning addition to our collection; the Valerio Radiator offers a sleek design and contemporary finish combined with high performance. These radiators have a stunning and futuristic appearance as well as being non-corrosive, light weight and very easy to install. Made from aluminium, a faster heat up time is achieved as aluminium is a superb conductor of heat. In addition, a much lower water content is needed, meaning running costs are kept low, resulting in great value for money. With this high output, Valerio radiators tend to be about 40% smaller than conventional radiators.

With a choice of two colours, these radiators can achieve pride of place in any home. Valerio radiators are also well suited to renewable energy systems.

Features

- Available in vertical & horizontal style
- Vertical radiator available in 1800 high and 3 widths 280mm to 470mm

Features

- Horizontal radiator available in 2 heights & 4 widths 565mm to 1420mm
- Manufactured and tested to BS EN 442
- Full 5-year warranty
- Available in Anthracite & White
- Attachable towel rail option

Another stunning addition to our collection; this sleek slimline radiator is the ideal solution for those tight or tall spaces, with excellent heat conductivity and light weight meaning the Viva is easily installed. This design has a curved front that is guaranteed to provide a stylish warmth to any room.

Made from aluminium a speedy heat up time is achieved as aluminium is a superb conductor of heat. With a significantly lower water content required, running costs are kept low allowing great value for money. With two colours available, these radiators can achieve a pride of place in any home.

Aura Specification

***Note:** The distance between the connection centres equals the length of the radiator

Aura 22mm Straight

Radiator Height (mm)	800 - 1785
Water Content (L)	3.3 - 8.5

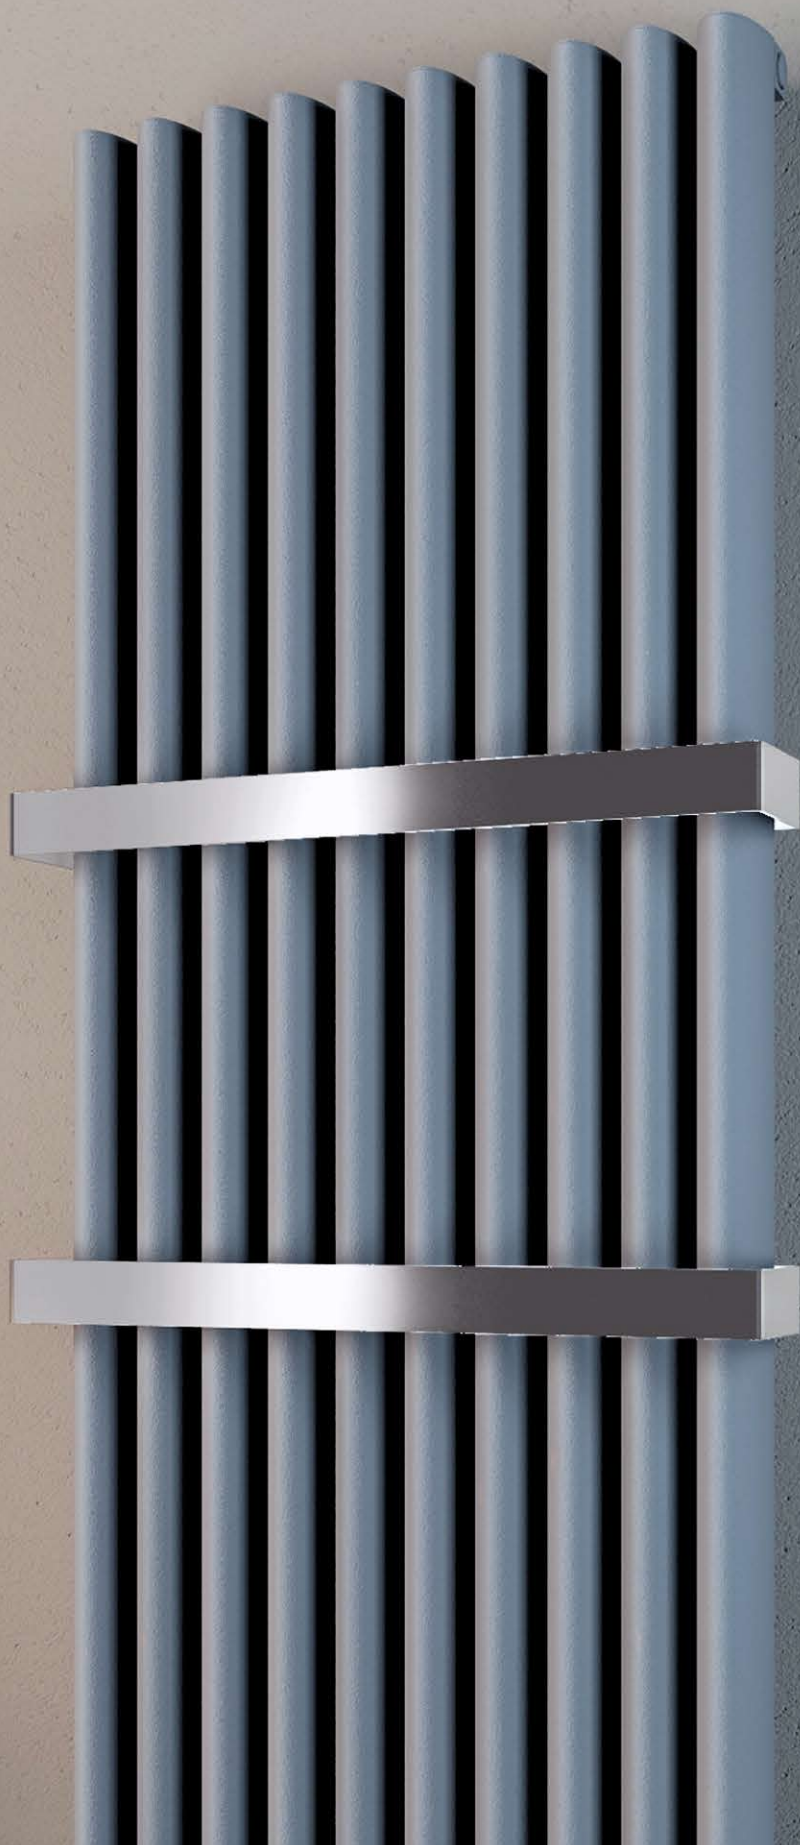

If used with Vaporo Valves.

Please note due to manufacturing tolerances pipe centres may vary by +/- 10mm, we recommend that pipe work is not altered until your radiator is on site.

All Aura Radiators: **Test Pressure:** 6.5 bar **Max Operating Pressure:** 5 Bar
